- We recommend taking home all 'winter' items during the Easter holidays to ensure there is room at the end of the summer term for all the extras bought along the way!
- If you need assistance with any of the items listed above, please let us know in advance.
- During the Easter holidays your room will need to be completely vacated. Storage crates can be provided for this purpose and also for those returning after the summer holidays.
- It is recommended that students have their names labelled into their clothes.
